

Two possible paths for the Separation Wall

Comparison Chart

	The Green Line	The Settler's Path
Length	290 Km	950 Km (3.25 times the length of the Green Line)
Cost of construction	580 Million \$	1900 Million \$
Annual Maintenance Cost	X Million \$	X Million \$ multiplied by 3.25
Required military Presence	N Soldiers	N Soldiers multiplied by 3.25
Motivation for violence	—————	Life behind Walls, in Ghettos, facing a hopeless future, will generate terrible violence.
Damage caused to Palestinians	—————	Massive confiscation of land and water resources. Demolition of houses, uprooting Olive trees
Palestinians trapped West of the Fence	—————	70,000 Palestinians in enclaves
Compatibility to The Road Map	✓	X Losing 45% of its land, Palestine will not be a free, Viable and sovereign state.
International Legitimacy	✓	X
U.S support of the path	✓	X

If this chart was comparing two brands of washing machine,
The choice would be obvious.

Yet the path of the Separation Wall, a gigantic project that will deeply influence our lives for generations to come, is decided upon with no public debate.
